

Sponsor an acre of land in our Northern Fields

Donate £10,000 to have a named acre and help us to own Heal Somerset outright

This is an opportunity to provide vital funding to enable us to reduce the impact lending used to acquire Heal Somerset at speed in the context of the nature emergency.

The company-sponsored acres are in our Northern Fields, a large area of the site which is closed to the general public for the benefit of wildlife.

However, as a named sponsor of land in this area, small groups of your team or your clients will be able to visit on occasions during the year (because of the ecological impact of visits, their scale and frequency will vary depending on conditions, the presence of animals and similar).

You will also be named on a board in our information centre as a land sponsor.

Impact

Bring specialist knowledge and expertise to the Heal team at Heal Somerset.

Legacy

The creation of a high-calibre, long-term monitoring programme and land management plan which will be used year after year, informing our work at future sites and also being shared with others.
